

GOING TO GREAT LENGTHS TO SUPPORT YOUR BEST WORK.

TRUS JOIST® PARALLAM® PSL BEAMS, HEADERS, AND COLUMNS

Now a great room can be even greater. Use beams, headers, and columns made from Parallam PSL, and you open up a whole new world of design options for the interior of a home. Parallam PSL has been engineered to support heavy loads and span long distances. Using a patented microwave process to bond together long, thin strands of wood, Parallam unites strength and consistent performance to create support members that deliver over the long haul.

- Consistent performance
- Available in long lengths
- Excellent connection performance
- Visually appealing in exposed applications
- Efficiently uses natural resources
- Comprehensive product warranty

SUPPORT. IT'S MORE THAN JUST A WORD TO US.

Parallam® PSL delivers on a host of fronts. Our manufacturing process uses veneer strands, allowing a significant percentage of each log to become a high-grade structural member.

The parallel-strand construction has another unique benefit you won't find in most structural timbers. Appealing aesthetics. When sanded and stained or painted in exposed interior floor plans, Parallam PSL adds dramatic emphasis to long spans, showcasing the quality of your work.

To help you realize all the strength and beauty of Parallam PSL, our Trus Joist Sales Representatives are at the ready. They're experienced problem-solvers who can use our software tools to help you build for strength as well as economics. Parallam PSL is strong, straight, easy on the eyes, and capable of spanning long distances. What more could you ask for in a structural member?

For more information about product availability in your region, contact your local Trus Joist representative.

2.0E Parallam® PSL header and beam sizes:

Widths: 2¹¹/₁₆", 3¹/₂", 5¹/₄", and 7"

Depths: 9¹/₄", 9¹/₂", 11¹/₄", 11⁷/₈", 14", 16", and 18"

1.8E Parallam® PSL column and post sizes:

3¹/₂" x 3¹/₂" 5¹/₄" x 5¹/₄"

3¹/₂" x 5¹/₄" 5¹/₄" x 7"

3¹/₂" x 7" 7" x 7"

PARALLAM® PSL BEAM, HEADER, AND COLUMN BENEFITS

- Supports heavy loads over long spans
- No pre-assembly of individual plies. Bolting and nailing are minimized, simplifying installation
- Can be cut to length on-site and fastened with common hardware
- Easily sealed and stained on-site, creating a stunning finished appearance
- Manufactured to resist shrinking, twisting, or bowing
